

Your Guide to Saving Money on Prescriptions

Low-cost prescriptions make a difference

At Walmart, we don't think you should have to choose between groceries and the medicines you need. Our \$4 prescriptions save American families hundreds of millions of dollars a year.

More \$4 prescriptions than ever

Now our \$4 price covers hundreds of prescriptions. That includes medicines for a wide range of conditions and diagnosis groups. This list is a quick-reference tool that will help you find the specific medicines you're looking for.

90-Day Prescriptions

Taking a regular prescription? Ask your doctor if you can refill it 3 months at a time. At only \$10, our 90-Day prescriptions save you even more than our regular low-cost prescriptions. You save trips to the pharmacy, too.

Revised 3/24/09

Allergies & Cold and Flu

| | \$4 | \$10 |
|------------------------------|---------------|---------------|
| | 30-Day | 90-Day |

Prescription Program includes up to a 30-day supply for \$4 and a 90-day supply for \$10 of some covered generic drugs at commonly prescribed dosages. Prices for some drugs covered by the Prescription Program may be higher and may vary in some states. Restrictions apply. See Program Details or your Walmart Pharmacist for details.

*Prices may be higher in CA, HI, MN, MT, PA, TN, WI, and WY.

† Prepackaged drugs are covered only in unit sizes specified on Drug List. See Program Details or your Walmart Pharmacist for details.

New non program medication for asthma and smoking cessation.

Asthma

ReliOn/Ventolin® HFA Inhaler 8g\$9

Smoking Cessation

Bupropion ER 150mg (17ct starter pack)\$9

Not part of Prescription Program or subject to Walmart's Prescription Program Details. Available at all Walmart, Sam's Club and Neighborhood Markets pharmacies in the United States, except in North Dakota. These drugs are offered at the price specified only in the exact unit sizes and formulations specified above and are not subject to proration. You may pay more or less depending on the terms of your health plan. Specified price may be limited to select manufacturers of the drugs and is available as long as supplies are in stock at the pharmacy. There are no substitutions or mail orders. See your Walmart Pharmacist for details.

Walmart's Prescription Program Details

1. Walmart's Prescription Program (the "Program") is available at all Walmart, Sam's Club and Neighborhood Market pharmacies in the United States ("Walmart Pharmacy"), except in North Dakota.
2. The Program applies only to certain generic drugs at commonly prescribed dosages. You may obtain a list of generic drugs and dosages covered under the Program (the "Drug List") on Walmart.com or at any Walmart Pharmacy. The Drug List may change and also may vary by state. Not all formulations of a drug (for example, enteric-coated, extended or timed release formulations) are covered under the Program.
3. Under the Program, \$4 is the price for up to a 30-day supply of certain covered generic drugs at commonly prescribed dosages (the "\$4 Program"). \$10 is the price of a 90-day supply of certain covered generic drugs at commonly prescribed dosages (the "\$10 Program"). Not all drugs covered by the \$4 Program are covered by the \$10 Program. Prices for quantities between a 30-day supply and a 90-day supply of drugs covered by both the \$4 Program and \$10 Program are prorated based on the \$4 Program price, but will not exceed \$10. Prices for quantities greater than a 90-day supply of drugs covered by the \$10 Program are prorated based on the \$10 Program price. Prorated pricing is not available under the Program for prepackaged drugs. For pricing policies relating to prepackaged drugs (such as tubes, vials or bottles), see Section 5.
4. Under the Program, \$9 is the price for up to a 30-day supply of certain women's health and other covered generic drugs at commonly prescribed dosages (the "\$9 Program"). \$24 is the price for a 90-day supply of certain women's health and other covered generic drugs at commonly prescribed dosages (the "\$24 Program"). Not all drugs covered by the \$9 Program are covered by the \$24 Program. Prices for quantities between a 30-day supply and a 90-day supply of drugs covered by both the \$9 Program and \$24 Program are prorated based on the \$9 Program price, but will not exceed \$24. Prices for quantities greater than a 90-day supply of drugs covered by the \$24 Program are prorated based on the \$24 Program price. Prorated pricing is not available under the Program for prepackaged drugs. For pricing policies relating to prepackaged drugs, see Section 5.
5. Prepackaged drugs are covered under the Program only in the unit sizes specified on the Drug List. Prepackaged drugs are dispensed based on the quantities prescribed and unit sizes in stock at the Pharmacy. Unit sizes not specified on the Drug List are not covered under the Program. Multi-unit purchases are charged at a per unit price, based on the price per unit size dispensed, unless otherwise specified. Prepackaged drugs dispensed in unit sizes not specified on the Drug List may be priced higher, even if equivalent quantities of the drug are available in specified unit sizes. Prorated pricing is not available under the Program for prepackaged drugs.
6. Prices of certain drugs covered by the Program may be higher in some states, as noted on the Drug List.
7. Program pricing may be limited to select manufacturers of a covered drug and is available as long as store supplies in stock at the Pharmacy from such manufacturers last.
8. You may pay less or more than the Program price, depending on the terms of your health plan. Prescriber permission may be required to change a 30-day prescription to a 90-day prescription. Certain plans, including government-funded programs, may not cover a 90-day supply.
9. Prescriptions must initially be filled in person. Refills must be picked up in store. There are no substitutions or mail orders.
10. These Program Details are subject to change without advance notice. Changes to these Program Details may be made only in writing.
